

recommendation by filing objections with the Clerk of this Court on or before November 27, 2017. The letters also invited claimants to contact GCG or Class Counsel with any questions or additional information.

5. Class Counsel and GCG received several inquiries regarding claims for which corrected purchase amounts were rejected in whole or in part. In each instance, Class Counsel and GCG re-reviewed the supporting submission and communicated with the claimant regarding the recommended treatment of the claim. These inquiries were resolved as follows:

a. Claim # 1009447/Reference # 2197: This claim was approved for the amount reflected in defendants' data, and the corrected amounts submitted above the amount of the defendants' data were approved in part and rejected in part. This claimant inquired as to why its corrected amounts had been rejected in part. After communications between Class Counsel, GCG and the claimant's representative, and a review of the submitted documentation and communications relating thereto, the claimant agreed with the recommended reduction.

b. Claim # 1005006/Reference #1416: This claim was approved for the amount reflected in defendants' data but the corrected amounts submitted above the amount of the defendants' data were rejected. This claimant inquired as to why its corrected amounts had been rejected. After communications between Class Counsel, GCG and the claimant's representative, and a review of the submitted documentation and communications relating thereto, Class Counsel and GCG agreed with the claimant that the corrected amounts had been sufficiently documented. As a result, the Recommended Schedule of Distribution has been revised to reflect the full amount of the corrected claim submitted.

c. Claim # 1009826/Reference # 396: This claim was approved for the amount reflected in defendants' data, but the corrected amounts submitted above the amount of the defendants' data were rejected. The claimant inquired as to why its corrected amounts had been rejected. After communications between Class Counsel, GCG and the claimant's representative, and a review of the submitted documentation and communications relating thereto, the determination was reached that further investigation was warranted with respect to this claim and that it was not feasible to complete this investigation prior to the December 19 hearing. GCG and Class Counsel recommend that the claim be approved for the amount of defendants' data, and that the claimant receive its initial payment based on the undisputed amount of the claim. GCG and Class Counsel further recommend that the investigation continue with respect to the additional corrected amounts with the understanding that the investigation will be resolved prior to the distribution of the remaining Dow settlement funds (the approximately 15% of the settlement funds not distributed in the initial payments to class members). When Class Counsel presents the schedule of distribution with respect to the remainder of the Dow settlement funds, GCG and Class Counsel will present their recommendation with respect to the disputed portion of this claim. If the claimant's Recognized Loss Amount is increased, the claimant will receive the additional funds out of the second distribution. The claimant has agreed to this procedure.

d. Claim # 1000951/Reference # 6208: This claim was approved for the amount reflected in defendants' data, but the corrected amounts submitted above

the amount of the defendants' data were rejected. This claimant inquired as to why its corrected amounts had been rejected. After communications between Class Counsel, GCG and the claimant's representative, and a review of the submitted documentation and communications relating thereto, Class Counsel and GCG agreed with the claimant that the corrected amount should be approved in part. As a result, the Recommended Schedule of Distribution has been revised to reflect the corrected amount recommended for approval.

e. Claim # 1008079/Reference # 875; Claim # 1009848/Reference # 796; and Claim # 1003523/Reference # 166: These claims were submitted by Third-Party Filers in instances where the class member had submitted a claim on its own. The claims were rejected as duplicates because the claim submitted by the Third-Party Filer was not signed by the class member. After communications between Class Counsel, GCG and the Third Party Filers involved, and a review of the submitted documentation and communications relating thereto, Class Counsel and GCG determined that the claims submitted by the Third Party Filer had been signed by the class member. Consistent with the protocol adopted where claims were submitted by the class member and the Third Party Filer, GCG and Class Counsel recommend that both claims be accepted (though the claim will only be paid one time) and the Recommended Schedule of Distribution and the Rejected Claims Report have been revised accordingly.

6. Class Counsel and GCG received objections from eight class members whose claims were rejected. In each instance, Class Counsel and GCG re-reviewed the supporting submission and attempted to communicate with the claimant regarding the recommended

treatment of the claim. Class Counsel and GCG recommend that these objections be resolved as follows:

- a. Claim # 452/Reference # 7444: This claim was submitted by G-7 Minor A. The defendants' data did not reflect any purchases by this claimant. The claim form submitted did not list any purchase amounts. In response to the Notice of Rejection, the claimant submitted a 2013 invoice from Amazon for approximately \$1,000 in purchases of polyurethane foam sheets and rolls. None of the purchased products appear to be urethane chemicals, within the scope of the class definition. GCG wrote to the claimant after receiving this objection, explaining this deficiency and directing the claimant to the websites for the direct and indirect Polyurethane Foam litigations pending in federal court in Ohio. Neither GCG nor Class Counsel has received any response from the claimant. Based on the above, Class Counsel and GCG recommend that this objection be overruled.

- b. Claim # 405/Reference # 7400: This claim was submitted by Robin Atkins. The defendants' data did not reflect any purchases by this claimant. The claim form submitted did not list any purchase amounts. The claimant instead advised GCG that all of her documents and receipts were destroyed in a flood, which the claimant reiterated in her objection. The claimant is an individual and thus unlikely to have purchased urethane chemicals. GCG wrote to the claimant after receiving this objection, seeking additional information that might support a valid claim but no response has been received. Without more, Class Counsel and GCG recommend that this objection be overruled; the defendants' data does not

identify any purchases made by this claimant and we have no reason to deviate based on the submissions received from the claimant.

c. Claim # 618/Reference # 7596: This claim was submitted by Parks and Sons Construction. The defendants' data did not reflect any purchases by this claimant. The claimant submitted the following corrected amounts: \$2 of polyols; \$6 of MDI; \$3 of TDI; and \$4 of systems. The claimant did not submit any documentation in support of the claim. In response to the Notice of Rejection, the claimant explained that all of its records had been destroyed in a 1999 fire or otherwise lost in the course of several moves. GCG wrote to the claimant after receiving this objection, seeking additional information that might support a valid claim but no response has been received. Without more, Class Counsel and GCG recommend that this objection be overruled; the defendants' data does not identify any purchases made by this claimant and we have no reason to deviate based on the submissions received from the claimant.

d. Claim # 414/Reference # 7408; Claim # 419/Reference # 7413: These claims were submitted by Alan Lansing, on behalf of Lansing Pipe & Flange and Lansing Maintenance. The defendants' data did not reflect any purchases by these claimants. The claimants submitted the following corrected amounts: (1) - Lansing Pipe: \$358,875 of polyols; \$302,988 of MDI; \$299,122 of TDI; and \$202,864 of systems; and (2) Lansing Maintenance: \$200,132 of polyols; \$190,984 of MDI; \$160,564 of TDI; and \$150,598 of systems. GCG sent Rejection Letters with respect to these two claims. Mr. Lansing filed objections in which he explained that his submitted proof was substantiated by his controller

and presented in a manner that would avoid substantial cost burdens. After communications between Class Counsel, GCG and the claimant, and a review of the submitted documentation and communications relating thereto, Class Counsel and GCG agreed with the claimant that the corrected amount should be approved in part. As a result, the Recommended Schedule of Distribution has been revised to reflect the corrected amount recommended for approval.

e. Claim # 1003663/Reference # 415 and Claim # 1004699/Reference # 139: Premilec (Reference # 415) and Demilec (Reference # 139) are related companies. For both Premilec and Demilec, GCG received two separate claims submissions, one from the “100% shareholder” of the companies and one from the CEO. GCG and Class Counsel approved the claim form submitted by the CEO and rejected the claim form submitted by the shareholder. An objection was filed on behalf of the shareholder with respect to both of these claims. The Court set a briefing schedule on these objections, with the initial brief from the objector due on December 6. That day, Class Counsel received an email from the approved claimant which forwarded an email from the objector authorizing the approved claimant to move forward with its claim. On December 8, Class Counsel received an email from counsel for the objector, confirming that the objection had been withdrawn. The objector has not filed anything further with the Court. Based on the above, Class Counsel and GCG recommend that these objections be overruled.

f. Claim # 639/Reference # 7612: This claim was submitted by Susan Pineda. The defendants’ data did not reflect any purchases by this claimant. The

claim form submitted did not list any purchase amounts and did not include any documentation in support of the claim. GCG sent a Deficiency Letter to Ms. Pineda but no response was received by GCG. In response to the Notice of Rejection from GCG, Ms. Pineda wrote back that she no longer had the requested data or documents and in lieu thereof was submitting a sworn attestation to that effect in support of her claim. GCG wrote to the claimant after receiving this objection, seeking additional information that might support a valid claim, but no response has been received. The claimant is an individual and thus unlikely to have purchased urethane chemicals. Without more, Class Counsel and GCG recommend that this objection be overruled; the defendants' data does not identify any purchases made by this claimant and we have no reason to deviate based on the attestation submitted by the claimant.

7. In the Distribution Motion, Class Counsel and GCG recommended that all settlement checks be made payable to and mailed to the Class Member, rather than the Third Party Filer and the proposed Order contained language to that effect. This recommendation reflected our concerns with sending negotiable checks to third-party entities rather than the Class Members, and the risk that settlement monies might never make it to their intended beneficiaries, the Class Members. Distribution Motion, ¶ 44. Class Counsel and GCG now would like to modify their recommendation to the Court in the following respect: for all claimants that retained third-party claims filers the contracts for which retention provide that the checks should be sent to those third-party claims filers in a negotiable form (e.g., Payable to Third-Party Filer FBO (For the Benefit of) the Class Member), the checks shall be made payable jointly to both the claimant and the corresponding third-party claim filer and mailed to the claimant's address.

Class Counsel and GCG have concluded that this approach reflects the most prudent course because the approach: (i) addresses our concern that settlement monies might never make it to Class Members as the check still will be sent to the Class Member and will need to be executed by the Class Member; and (ii) more closely reflects the agreement between the Class Member and Third-Party Filer that the settlement checks be sent to the Third-Party Filer in a negotiable form. This recommendation has been incorporated into the revised proposed Order provided to the Court.

UPDATED ACCOUNTING

8. As set forth in the Recommended Schedule of Distribution attached hereto as Exhibit 1, the revised total Recognized Loss Amount on all Accepted Claims is \$519,572,892.94.

9. As of September 30, 2017, the balance in the Dow Settlement Fund escrow account is \$556,980,141.

10. The Distribution Motion asks that \$473,433,120.57 (85% of the Dow Settlement Fund) be transferred into the new Distribution Account for purposes of making the first installment of payments.

11. The Recommended Schedule of Distribution attached as Exhibit 1 hereto was calculated using the above amounts.

12. Class Counsel will provide to the Court a revised proposed Order Approving Distribution of the Dow Settlement Fund reflecting the foregoing updated information.

DATED: December 8, 2017

Respectfully submitted,

*GCG received duplicate Claim Forms submitted by Class Members on their own behalf as well as by a third party on behalf of the Class Member. GCG and Class Counsel determined that, so long as the Claim Form submitted by the Third Party Filer was signed by the Class Member, both the claim filed by the Class Member and the claim filed by the Third Party Filer would be recommended for approval, however, only one payment will be issued.
